

CONSTRUCTION CONTINUES

Construction continues this Fall with increased safety protocols for ARCH clients. Featured projects include **The Village at Rockville's** Independent Living expansion with Wellness Center, **Eben Ezer Lutheran Care Center's** skilled nursing wing addition, and **Friendship Village of Schaumburg's** new parking lot and interior renovations.

VIRTUAL SPEAKING ENGAGEMENTS

ARCH's President, Frank Muraca, joined Ziegler and fellow industry investors and leaders in a webinar to discuss recent activity in the not-for profit senior living sector. At LeadingAge California, ARCH presented two education sessions on understanding critical due-diligence items to circumvent costly development risks; the importance of integration with marketing, finance, executive leadership and physical plant for setting project priorities; the complexity of project stakeholder communication; and tips for responding to COVID. ARCH was pleased to participate in this year's LeadingAge Annual Conference, catching up with colleagues virtually at our booth.
