

## ARCH Gives Back

The Foodie 5K is an annual benefit run for the Northern Illinois Food Bank, a Feeding America affiliate. The food bank does an amazing job leading our community in solving hunger by providing nutritious meals to those in need!

The ARCH team is proud to support Feeding America as a part of our corporate social responsibility program. This past Saturday, the ARCH team dusted off their running shoes to raise money for the Northern Illinois Food Bank at their annual Foodie 5K Fun Run/Walk. Our group had a great time participating in the 5K and was able to raise significant funds to help our hungry neighbors!

## Chapel Renovations

The Village at Rockville, a National Lutheran Communities and Services campus, recently underwent a beautiful renovation to its chapel and adjacent lobby. This renovation included a complete refurbishment with new interior finishes, lighting, furnishings and upgrades to their audio/visual system. ARCH provides Project Management services for the campus.

## New Building Completion

ARCH helped successfully bring another project to a prominent milestone. Phase 1 of the three-phase Eben Ezer Lutheran Care Center (EELCC) redevelopment has been completed! This phase of the project consisted of the development of a new Memory Care and Assisted Living building. ARCH serves as EELCC's Development Manager.
